COMMERCE CHAMBER PLANS POTATO DAY FOR NEXT MONTH

Farmers to Be Invited to Bring
Spuds and the City
Will Find a
Market

TO GIVE FARM SIGNS

Plan Proposed to Supply Far-
mer Members with Bulletin
Boards for Establish-
ments

Some time in October La Crosse
will have a Potato Day, on which
all the farmers of this section will bring
to town the potatoes they want to
sell. The city will guarantee them
a market.

Potato Day was assured last night
when it was officially approved by
the agricultural bureau of the Cham-
ber of Commerce, and Chairman H.
C. Evenson authorized to name a
committee to work with a similar
committee appointed by the mer-
chants bureau to take charge of ar-
rangements.

E. H. Derr, William B. Euler and
T. F. Moss are three of the commit-
tee selected by Dr. Evenson to take
charge. The fourth member he had
not selected.

The chairman announced that a
committee of farmers would be se-
lected to supervise the market on
Potato day, to grade the potatoes,
etc.

The occasion, it is planned, will
enable all citizens to lay in their win-
ter supplies of potatoes, as well as
providing the farmers with a definite
assurance of business if they come to
town. A local commission merchant
has agreed to take all of the potatoes
which the citizens do not purchase
from the farmers.

Bureau's Policy
The plan for the day is in line
with the policy of the bureau, which
was outlined at Tuesday night's
meeting, by one of the speakers, as
follows:

"To find a way to put the farmer
in touch with the demand for his pro-
ducts."

It was pointed out that too often
farmers coming to the city are unable
to get into communication, for lack
of knowledge of local conditions,
with the person who is able to buy
his products.

To Give Farm Signs
Farmers, holding membership in
the Chamber of Commerce will be-
come possessors of a combined farm
sign and bulletin board by virtue of
their membership. If the board of
directors looks with favor upon the
plan approved by the agricultural
bureau Tuesday night.

The bureau advocates supplying
each farm member with a black
board for erection along the main
road passing his farm. At the top
will be painted in white the name of
the farm and its owner. Below will
be letter the fact of his membership
in the chamber, and a space between
the two.

In addressing the meeting of the
agricultural bureau last night, Chair-
man Evenson declared that the object
of the bureau is to establish co-opera-
tion between farm and city. He called
attention to the mutual interests of
the country and city. There are
a thousand farms in a ten-mile radius
of La Crosse, said the chairman,
whose invested capital, without
counting land and equipment, aver-
ages close to \$1,000. The prize agri-
cultural county of Minnesota, he ad-
ded, is just across the river. He
urged encouragement of all their ac-
tivities.

Go to Houston Fair Urges The Farmers' Bureau

Business houses of the city were
urged to send representatives to the
Houston County fair on La Crosse
day, September 20, by the Agricul-
tural Bureau of the Chamber of Com-
merce at its meeting in the city hall
Tuesday evening. The bureau adopted
the following resolution:

"Whereas, The Houston County,
(Minnesota) Agricultural society will
hold its annual fair at Caledonia Sep-
tember 19, 20 and 21, and

"Whereas, the officials of said
Houston County Agricultural society
have set aside Wednesday, Septem-
ber 20 as 'La Crosse Day', upon
which day they extend a cordial in-
vitation to the business interests of
La Crosse, as represented through
the Chamber of Commerce of La
Crosse, to attend the fair, therefore

"Be it resolved, that the Agricul-
tural Bureau of the Chamber of
Commerce of La Crosse to send rep-
resentatives to Caledonia on 'La
Crosse Day' as an evidence of good
will and friendly feeling toward our
sister city in its effort to forward
the progress of a community in
which the city of La Crosse is
greatly interested."

Some time in October La Crosse
will have a Potato Day, on which
all the farmers of this section will bring
to town the potatoes they want to
sell. The city will guarantee them
a market.

Rail Earnings Show Raise Of 26.6 Percent

WASHINGTON, Sept. 13.—Net
earnings on the large railroads of
the United States for the fiscal year
just closed increased 26.6 per cent
over the preceding year, according to
reports received by the interstate
commerce commission.

Statistics from all railroads in the
United States with operation incomes
of more than a million dollars show
a total net revenue of \$1,176,804,001.
For every mile of road operated,
the net earnings averaged \$5,134.

The railroads increased their net
revenues \$305,969,000 over the pre-
ceding years.

SHADY DEALINGS ARE CHARGED OF U. S. BUSINESSMEN

American Consul at Buenos
Aires Declares Proof Should
Be Submitted for
Charges

BUENOS AIRES, Sept. 13.—The
United States consul here has come
to the defense of American business
men who have been accused of ques-
tionable dealings in South America.
The accusations were first made by
the Argentine industrial union. Com-
plaint was made also that the Na-
tional City bank of New York, which
has large dealings in South Amer-
ica, had made similar charges against
certain firms in the United States.

The consul applied directly to the
Argentine industrial union for the
names of the firms alleged to have
been guilty of improper practices. Of-
ficers of the union parried with the
statement that they could not reveal
the names of the firms nor could they
make public details of the transac-
tions complained of. They sug-
gested that the consul take the mat-
ter up with members of the union
and question them individually.

The consul questioned the practi-
cability of such a method. He pointed
out that the union had made a
serious charge against certain United
States business men and declared
that in fairness to all business men
in the United States with dealings in
South America the union should sub-
mit proof of the accusations.

Indirectly he expressed the belief
that possibly commercial rivalry had
something to do with the allegations.
Possibly, he wrote, the accusations
were due to "competitors who, be-
cause they were competitors, may not
always be able to take an unpreju-
diced view."

The consul has renewed his re-
quest on the union for more details.

POPE THROUGH WITH PEACE EFFORTS UNTIL SIGNS OF EXHAUSTION

BY JOHN H. HEARLY
(United Press Staff Correspondent.)
ROME, Sept. 13.—Pope Benedict
will make no more efforts to end the
war until he is convinced that one
source or the other is approaching
a stage of exhaustion.

His Holiness is now convinced that
it would be useless for him to renew
peace overtures either now or in
the immediate future.

Before the allies began their great
offensive, when peace talk was again
prevalent in Europe, the pontiff
made his last peace suggestions.
They were received respectfully by
the allied governments, but the vati-
can informed that the allies at that
time could not listen to peace pro-
posals in view of the German ideas
of a proper settlement.

It has been rumored persistently
in the last forty-eight hours that Car-
dinal Gasparri, papal secretary of
state, is about to resign. Under Sec-
retary of State Todeschini will be
Gasparri's successor, it is reported.
Pietro Gasparri is 64 years of age
and was created a cardinal on De-
cember 16, 1907. He has held many
prominent church offices and was a
member of Pope Pius' famous com-
mission for the codification of the
canon law.

LITTLE WAIF LEFT ON BANKER'S DOORSTEP IS TO BE ADOPTED

NEW YORK, Sept. 13.—A two
weeks old boy, abandoned on the
doorstep of William Salomon,
wealthy banker, Tuesday night,
probably will be adopted by the Sa-
lomons and become an heir to the
banker's millions, it was said at the
Salomon home in Fifth avenue.

A dinner party was in progress at
the Salomon home when a mail car-
rier, arriving with some letters,
heard a cry in the vestibule and dis-
covered the infant. The butler was
about to carry the baby to the po-
lice station when Mrs. Salomon rushed
out in an evening gown. She cud-
dled the youngster up in her arms;
the cry ceased and what all the Sa-
lomons guests swore was a smile
spread over the baby's face.

That settled it. Mrs. Salomon sent
for a nursing bottle and her limous-
ine. The baby was wrapped in a
blanket and the Salomons and all
their guests, still in evening clothes,
headed for the nearest police station
to find out how to adopt a baby.

"BOB" TO REST ON FARM BEFORE RESUMING STUMP

MADISON, Wis., Sept. 13.—Sen-
ator Robert M. La Follette said today
that he would spend a few days in
a vacation on his farm before re-
turning to campaign work. The senator
declared that he would take up his
speaking program where he was com-
pelled to cancel it before the primar-
ies and would continue speaking in
the state for a month or six weeks
as soon as he was rested up. His
Maple Bluff home has become a me-
cca for politicians who have already
started to come to the city to confer
with the senator.

125 CITIES COMPETE FOR ARMOR PLANT

WASHINGTON, Sept. 13.—The
tales of 125 cities were poured into
the willing ears of the naval board,
charged with the job of picking a
site for the government's \$11,000,
000 armor plate plant Wednesday.

The board, headed by Secretary
Daniels, consists of Assistant Sec-
retary Roosevelt, Admiral Benson, and
Rear Admiral Strauss.

Beginning at 9:30 o'clock they
heard one delegation after another
on the merits of their respective com-
munities. Later they will read a
great stack of briefs, brought or sent
from various cities.

HEATED FACTIONAL ILLINOIS FIGHT BRINGS BLOODSHED

Sullivan Worker Stabbed in
Hand; Police Held in Re-
serve for Riot
Calls

NAMING STATE TICKET

Women Allowed to Vote Only
for Local Offices; Voters
Need Not Tell Their
Ages

CHICAGO, Sept. 13.—Factional
strife between supporters of Gov-
ernor Dunne and adherents of Roger
Sullivan, backing William Brinton
against Dunne for the democratic
gubernatorial nomination, flamed in-
to the open at Wednesday's primar-
ies.

First bloodshed occurred here
when William Heller, a Sullivan
worker, was stabbed in the hand.
His assailant escaped. The affair
followed a fist fight. Heller was
taken into custody.

Police were held in reserve at sta-
tions ready to respond to riot calls.
In the republican camp a fist fight
occurred between Attorneys C. L. Day
and F. L. Reed, in an argument con-
cerning the merits of E. L. Brun-
dage, republican candidate for attor-
ney general. Day was taken into
custody.

Medill McCormick, candidate for
the republican nomination for con-
gressman at large, charged a "double
cross." It was found that hundreds
of sample ballots marked for for-
mer Senator W. E. Mason, were being
distributed whereas it was under-
stood they should have been marked
for McCormick. McCormick wired
to his supporters throughout the
state in an effort to offset the "dou-
ble cross." The "city hall crowd"
was blamed by McCormick's adher-
ents.

A million voters were expected to
go to the polls throughout the
state. The cost of the Illinois pri-
maries, it is said, will run close to
\$3,000,000.

Approximately 320,000 persons
will vote in Chicago, according to
Chief Clerk of Elections Dennis Egan.
Of this number, he estimated
160,000 will be republicans, about
150,000 democrats and a small scat-
tering vote in other parties.

One of the tightest races ever
started for a republican governorship
was still in progress Wednesday as
voters went to the polls to select one
of three candidates to run in the No-
vember elections. Colonels Frank O.
Lowden, Frank L. Smith and Morton
Hull are the candidates.

On the democratic side the race is
just as hot. Sullivan democrats have
lined up against Governor Dunne,
opposed for the nomination by Wil-
liam Brinton, and are going the limit
to put their man across.

Aside from the governorship, the
two major parties will be nominating
a complete state ticket, twenty-seven
members of congress, including two
congressmen-at-large and twenty-five
district members.

Women will be entitled to vote for
only local offices. By a ruling of
County Judge Thomas Scully, voters
will not have to give their ages.

"It's placing a premium on youth
to force people to tell their ages,"
said Scully. "It isn't fair. Besides,
if they don't want to tell their right
ages, they won't, so what is the use
of having them tell it?"

SIMPSON AND MURRAY WILL INVADE EUROPE

NEW YORK, Sept. 13.—Robert
Simpson of the University of Mis-
souri and Fred S. Murray, late of Le-
land Stanford university, will make
the trip abroad with Ted Meredith
and Joe Loomis this fall. These two
athletes, the premier hurdlers of the
world, were chosen after it was
found Jole Ray, now unattached,
could not make the trip for the con-
tests in Sweden, Norway and Den-
mark. It was announced Wednesday.
All these athletes, with the exception
of Meredith, have all-round athletic
ability.

Soft Drinks Now For Thirsty on Limited Trains

Ice cream soda "cocktails," sun-
dae "highballs," and sarsaparilla
"rickies" are the latest additions to
service on the coast trains of the
Burlington railroad passing through
La Crosse.

They are being served on the
better trains on this part of the big
system to offset the absence of
"hard" drinks, prohibited because a
greater part of the territory trav-
ersed by the trains is "dry."

Two fingers held in the air when
George, the porter, is looking, means
an ice cream soda. One finger means
a soda-straight. Three fingers slan-
ted at the porter will bring you a
sundae. "George" has tagged the li-
quid concoctions with "highball,"
"cocktail," etc.

They are being served in lounging
cars and all Pullman coaches.

Between Two Kings

KING OF GREECE EMPEROR OF GERMANY
QUEEN OF GREECE

No queen in Europe is in just the
kind of trouble that bothers Queen
Sophie of Greece. Other queens have
their troubles growing from the war,
one at least has temporarily lost her
throne. But Queen Sophie is the sis-
ter of the kaiser of Germany and the
husband of the king of Greece. The
people of Greece, it is believed, stand

with the allies, and though King Con-
stantine was raised in the German
army and leans toward Germany, the
day has passed when kings may go
too far against the will of their
people. Thus the queen, all of whose
leaning is toward Germany, is strug-
gling hard to decide whether she
must stick to her brother or her
husband.

RICH SUFFRAGIST NATIVE OF CITY SUICIDE IN GOTHAM

Miss Grace Nevins Is Found
Dead in Her Room with
Acid Bottle by
Side

HAD LARGE PROPERTY

Was Daughter of the Late S. L.
Nevins, Secretary of
General C. C. Wash-
burn

NEW YORK, Sept. 13.—Miss
Grace Nevins, 54, prominent suffra-
gist, whose father was a wealthy La
Crosse, Wis., manufacturer, was
found dead in her room here today
with a bottle that contained acid at
her side. The police found \$10,000
in cash and jewelry in her apartment
and bank books noting deposits of
\$10,000.

Miss Nevins was a native of La
Crosse, daughter of the late Sylves-
ter Nevins, secretary of General Cad-
wallader C. Washburn. His wife was
a sister of Mrs. Washburn, and Mr.
Nevins was a close friend and con-
fidante of the general's until his
death. In the Washburn will, on file
at the court house, S. L. Nevins and
his family are named to receive the
sum of \$3,000 annually, the amount
to be divided among the Nevins chil-
dren in case of Mr. Nevins' death.
S. L. Nevins died in the east about
seventeen years ago.

Miss Grace Nevins and her brother
Andrew were his only surviving
heirs. Another brother was A. G.
Nevins, a prominent journalist of the
early days in this city.

Miss Nevins was well known in La
Crosse to the older generation. She
has not been here in recent years ex-
cept twice, both occasions being fu-
nerals of relatives.

Mrs. H. W. Kincaid, 926 Main
street, is the only relative of Miss
Nevins now living in the city. She
and her father, Andrew Nevins, and
a sister, Miss Bessie Nevins of Bos-
ton, are the New York suffragist's
only surviving heirs.

It is probable that the body of
Miss Nevins will be brought to La
Crosse for burial beside her father
in the family lot here, it was said.
Mrs. Kincaid had no knowledge of
the cause of her aunt's death, other
than that she was known to be in
uncertain health.

PARIS BELIEVES VICTORY NEAR AS FORCES ADVANCE

Last of Strong Third Line Ger-
man Defenses Carried in
Smashing Attacks by
French Tuesday

SEE EASIER ADVANCE

Defenses Built Back of the Old
Lines Not Believed of Strength
Sufficient to Stop the
Allies

PARIS, Sept. 13.—Continuing
their great drive on the front of
Comblès and Peronne, the French
Tuesday night captured the whole of
the village of Bouchavesnes, midway
between Comblès and Peronne, de-
spite the Germans most desperate re-
sistance. It was officially announced
Wednesday.

Early Wednesday morning the
French pushed further eastward, cap-
turing the Bois Labé farms near the
Peronne-Bapaume-Bethune highway
by a brilliant bayonet charge.

The French gains in the great at-
tack that began Tuesday afternoon
are of the greatest importance. The
positions carried are the last of the
strongly fortified German third line
of defense between Comblès and Pe-
ronne. All the positions now held by
the Germans back of this line have
been built under the unceasing fire
of French artillery and consequently
are not nearly so strong as the old
lines.

Comblès, which is the main point
of support of the whole German line
from Bapaume to Peronne is under
fire from two sides and half way sur-
rounded as the result of yesterday's
smashing blow by the French. Pe-
ronne itself has been cut off from
direct communication with Comblès
and the French driving eastward on
a front of nearly four miles, have
established themselves almost direct-
ly north of the city.

The capture of both Comblès and
Peronne within a fortnight is ex-
pected by some military critics, if Foch
continues his hammer blows north of
the Somme.

QUIT ON BRITISH FRONT

LONDON, Sept. 13.—The situation
on the British front as the result of
Tuesday night's operations is un-
changed, General Haig reported Wed-
nesday.

Berlin Admits Loss

BERLIN, Sept. 13.—French troops
penetrated the village of Bouchaves-
nes between Comblès and Peronne, in
heavy fighting last night, but were
repulsed in attacks near Thiaumont
and Souville, on the northeastern
Verdun front, it was officially an-
nounced Wednesday.

ZAIMIS RECALLS RESIGNATION IS ATHENS REPORT

Premier Said to Have Gone

EXPECT WAR MINISTRY

London Correspondents Believe
Greece Will Join the War
on Side of the
Allies

LONDON, Sept. 13.—The Greek
cabinet crisis took a new turn Wed-
nesday after King Constantine had
accepted the resignation of Premier
Zaimis, said a Central News dispatch
from Athens Wednesday night.

Zaimis finally yielded to persua-
sions of his friends and withdrew the
resignation with the king's consent.
He will re-form the cabinet with new
ministers of war and interior, sup-
posedly of pro-ally sympathies.

Other reports from Athens declar-
ed Stratos, a former member of the
Venizelos cabinet, has been instruct-
ed by King Constantine to sound M.
Dimitrakopoulos relative to the for-
mation of a new ministry. Dimitra-
kopoulos was said to have conferences
scheduled for Wednesday with Stra-
tos and other political leaders.

London correspondents at Athens
express confidence that a new war
ministry will be formed and that
Greece will join the allies very soon.

ROME, Sept. 13.—M. Cornillas

of Greece in the new cabinet, accord-
ing to information reaching diplo-
matic circles here Wednesday.

ASSURANCES FAIL TO TAKE OFFICIAL EYE OFF JAPAN

WASHINGTON, Sept. 13.—Despite
the assurances received Tuesday from
the Japanese foreign minister, the
state department is awaiting further
advice from the American diplomats
at Tokio and Peking before arriving
at a conclusion as to whether Japan's
demands on China infringe on the
sovereignty of that country and
upon American rights there.

The progress of the negotiations
between Japan and China over the
demands will be carefully watched,
officials say.

The former vagueness regarding
the demand that Japan be given po-
lice rights in South Manchuria and
eastern Mongolia has been favorably
cleared up by the statement of the
Japanese foreign office, it was said.
The demand being only that Japanese
police be stationed in towns where
there are large Japanese settlements,
the fear of dominant Japanese con-
trol of that territory has been re-
moved.

WOULD KEEP DIVORCEES FROM MARRYING AGAIN

CHICAGO, Sept. 13.—Divorcees
who are members of the Protestant
Episcopal church will be unable to
marry again while his or her former
mate is living, if the new canon re-
commended by the commission on
marriage and divorce is adopted by
the general convention of the church
which meets in St. Louis October 11.

The law of the church has hitherto
allowed marriage of the innocent
party in a divorce suit secured on
the ground of adultery.

"Divorce is increasing by leaps
and bounds," says the report recom-
mended by the committee consisting
of five bishops, five priests, and five
laymen, "and is becoming increas-
ingly difficult to determine the inno-
cence of either party to a divorce."

"The proposed legislation does not
affect cases where the marriage re-
lation is annulled by the courts for
causes arising before the marriage."

Establishment of an "entente cordiale" between La Crosse and Winona businessmen is well under way, with an exchange of notes between Secretary James R. Kinsloe, of the Chamber of Commerce, and President P. A. Jacobson of the Winona Association of Commerce. The correspondence between the business ambassadors was made public at the local offices of the Chamber of Commerce, as follows:

Winona's Letter

"Winona, Minn., Sept. 7th, 1916.

"Mr. James R. Kinsloe,

"Executive Secretary, Chamber of Commerce,

"La Crosse, Wisconsin.

"My Dear Mr. Kinsloe:

"I trust that you are well pleased with your new connections and assure you that not only myself, but the Association of Commerce as a whole, wish you the greatest success in your present field.

"May I suggest in passing that I think your Association and also the Association of Winona ought to do their utmost to create and foster the very friendliest feeling between these two cities.

"As time goes on, I believe you will find opportunities where the joint efforts of the two cities would do much in building up this territory.

"Situated as we are, what is good for one, should be equally good for the other and you may rest assured that there exists in Winona the most friendly feeling for La Crosse and it is my purpose to foster and encourage that feeling as far as possible.

"With kindest regards and best wishes, I remain

"Very truly yours,

(Sgd) "P. A. JACOBSON,

"President, Winona Association of Commerce."

La Crosse Reply

"September eleventh, 1916.

"Mr. Parker A. Jacobson, Pres.,

"Winona Association of Commerce,

"Winona, Minn.

"Dear Mr. Jacobson:

"Receipt of your letter of the 7th inst. is acknowledged, and the expressions of good will from you personally and, through you, from the Winona Association of Commerce, make me doubly appreciative.

"The statement you make that there exists in Winona, the most friendly feeling for La Crosse I know to be absolutely true, and I want to assure you that since coming to La Crosse I have many times confirmed what, while representing the Winona Association of Commerce, I always knew to exist in La Crosse—a most friendly feeling toward Winona. Rest assured that President Hixon and the officers and Board of Directors of the Chamber of Commerce of La Crosse will do all in their power to foster and encourage this feeling of friendship between the two cities.

"I have the honor to represent an organization of over one thousand business and professional men and women who glory in the progress and prosperity of a sister city. Personally I like to feel there exists between each city in this particular section of the Northwest the same feeling I think should exist between the merchants of a city, between whom there should be only friendly rivalry, and broad-minded competition, the sort of competition which breeds a spirit of 'Live and help Live'.

"The Chamber of Commerce of La Crosse begs an opportunity to be of service to the Winona Association of Commerce. There should be, and doubtless will be, between the two organizations that spirit of co-operation which seeks, not to make use of each other, but to be of use to one another.

"Permit me to assure you that La Crosse's interest in the progress and prosperity of every city in the Northwest is second only to its interest in the progress and development of our own City and Chamber of Commerce.

"With sincere good wishes, we are very truly yours,

"CHAMBER OF COMMERCE OF LA CROSSE

"By

"Executive Secretary."

To Prevent Old Age Coming Too Soon!

"Toxic poisons in the blood are thrown out by the kidneys. The kidneys act as filters for such products. If we wish to prevent old age coming too soon and increase our chances for a long life, we should drink plenty of pure water and take a little 'Anuric,' says the famous Dr. Pierce of Buffalo, N. Y.

"When suffering from backache, frequent or scanty urine, rheumatic pains here or there, or that constant tired, worn-out feeling, the simple way to overcome these disorders is merely to obtain a little 'Anuric' from your nearest druggist and you will quickly notice the grand results. You will find it thirty-seven times more potent than lithia, and that it dissolves uric acid as hot water does sugar.

For Inactive Liver and Clogged System

A safe treatment should be used. A violent liver stimulant and a severe cathartic may afford temporary relief, but they weaken as well, and the reaction leaves the sufferer worse than before.

MANALIN

is prepared on different principles. It is mild, and induces a natural action of liver and bowels. It is safe, because it is free from any drastic purgatives. It is effective because it combines the principles of a liver astringent and a laxative. And it is pleasant to take.

THE TABLET FORM

is convenient, pleasing, effective and economical. Proper use will nearly always correct faulty habits and bring back a natural condition.

The sufferer who fails to obtain proper results may write to the Medical Department of this Company, and get medical advice free of all charge.

Start correcting your habits today—Manalin will help you.

How Strike-Breaker Waddell Protected Motormen on New York Elevated Trains

J. T. Waddell of Chicago, noted strike-breaker, was given the job of supplying men for the New York City elevated lines when a strike was called. In order to protect those motormen of the elevated trains who remained at work, and also the new men, he had every motorman's window covered with heavy wire, so rocks could do no damage. No motorman was injured; in fact, strikers did not attempt to injure them.

NO AGES AT POLLS

CHICAGO, Sept. 13.—Women voters did not have to give their ages when they went to the polls Wednesday to cast their ballots in the state primaries. Neither did men.

County Judge Thomas Scully elected himself as the champion of secrecy when he issued an order instructing election clerks and judges to refrain from asking voters their ages.

"In this day of premium on youth, it is not right to make anyone place himself on a record that may do him or her harm," Scully said.

MEAT CAUSE OF KIDNEY TROUBLE

Take Salts to flush Kidneys if Back Hurts or Bladder bothers.

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush out the body's urinous waste, get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.

THE DISCIPLE OF PROVINCIALISM

While we cannot agree with Alderman Paul W. Mahoney in his attempt to bring before the council cases of failure to connect with sewers, we agree with him heartily in his criticism of the system of educating public officers at public expense. There are national and state associations to which almost every officer in the municipal government is eligible. There are the municipalities convention for mayors and aldermen, conventions for chiefs of police and fire department, school superintendents, health officers and numerous other public officers. Something is to be learned at some of these conventions—and the wideawake officer will wish to attend them, if he can, but as the information he gains will be of large benefit to him personally, and will often enable him to obtain a better paying position in another city, he ought to go at his own expense.

—Leader-Press.

For instance, by religiously attending conventions at the expense of their munificent pay, the mayor, commissioners of public works or aldermen, holding elective offices in which citizenship figures as an essential, may "be enabled to obtain better-paying positions in another city".

We believe Mr. Mahoney and the Leader-Press are both in error. The TRIBUNE gladly pays the expenses of department heads to more than one newspaper convention a year, to learn of new methods and absorb new ideas. The business profits by it and should pay the cost. There are in La Crosse a large number of business houses conducted on modern lines, that send salaried representatives, on expense account, to meetings where they may acquire information valuable to the business. The Municipal League of Wisconsin is an organization of live Badger cities. Officials attend its conventions to exchange ideas, investigate supplies, equipment and machinery necessary in the work of a municipality, and to keep in touch with the front rank of the times in civic matters. Most of these men have their private interests and serve their cities at little or no salary, from a sense of civic duty. The things they learn looking to better city government are acquired for the public benefit, and certainly the officials who thus give their time to public service should not be expected to pay the cost of investigation, any more than are representatives of private firms required to foot the cost of similar enterprises. No truly efficient modern business house expects to keep abreast of the times without keeping in touch with the latest ideas involving its line, nor do they expect employees to pay for the information. Is a city well governed that fails to employ modern business policies? One new thought acquired or error avoided may mean a hundred times as much to our taxpayers as the entire annual cost of all these trips.

This discussion arose over a resolution authorizing the city again to become a member of the Municipal League of Wisconsin, and sending the mayor, president of the board of works and two aldermen to attend the league's convention at Oshkosh, Wis., with expenses. Mr. Mahoney voted AGAINST the resolution.

In that same meeting Mr. Mahoney himself introduced a resolution to send Fire Chief McLaughlin to the annual convention of fire chiefs in Providence, R. I. Mr. Mahoney voted FOR this resolution.

The expense of the chief's trip was \$109, while that of all five officials sent to the league convention was \$108. Certainly the discrimination had no basis in "economy".

Just what is the basis of Mr. Mahoney's discrimination between these two cases does not appear. Perhaps light may be thrown upon it by an earlier incident. If memory serves, it was during the council meeting at which a former mayor received congratulations upon his election to the presidency of the Municipal League of Wisconsin, that Alderman Mahoney introduced a resolution providing for the withdrawal of La Crosse from that organization.

We believe it was sound policy to send the fire chief to the convention of chiefs. We believe it was equally sound policy to send the group of city officials to the convention of the Municipal League of Wisconsin. The cost was modest, the purpose excellent and, could they be rendered tangible, the results no doubt could be shown to be far more than commensurate with the expense.

SIGNS TWENTY CHECKS AT ONCE

As over half a million checks have to be signed in the United States treasury each year, an ingenious machine has been devised by means of which as many as twenty checks may be signed at once. The machine contains a number of pens arranged upon a page of checks so that the signature comes in the proper place. These pens are controlled by the master pen which is held in the hand of the operator, a deputy assistant treasurer of the United States. The signatures are, of course, exactly alike.

"Yes," replied the genial philosopher. "I know a barber in this town who at the age of 5 was the most disagreeable little shaver you ever saw, and always mixed up in some sort of bad scrape."

The reason why children are allowed to play in sand and not in sugar is that the former doesn't taste so good.

CERTAIN STREETS IN VENICE

The Piazza of St. Mark's is an eminently conventional place to start seeing Venice. It has been snap-shot, sketched, charcoalled, done in oils and water-colors by the itinerant amateurs of every nation. Visitors less artistically gifted walk around the widely advertised evolutions of St. Mark, or sit under the arcades that fringe the square, discussing beverages whose colors shame the palettes of the artists. The Piazza is the gathering place of visitors in Venice, and the gathering place of the natives as well. This combination of attractions is possible because the Italians are the self-unconscious race and do not mind being stared at by tourists from Lincolnshire and Dakota.

The TRIBUNE'S Daily Short Story

GETTING THE OLD MAN'S GOAT

BY DEAN HERRICK

(Copyright, 1916, by the McClure Newspaper Syndicate.)

Eric Bailey had been called up "on the carpet," and now stood cap in hand listening to Archibald Flahaven's tirade. Sometimes his fingers twitched, but other than that he gave no sign that the words were making any impression.

Flahaven pounded his desk and his apoplectic face took on an alarming color. "Anyway," he bellowed, "I want you to let Viola alone."

So that was it! Eric had suspected as much. It wasn't the number of steel rails that had been scrapped after all that was causing this tempest in the general manager's brain. That was only an excuse for the outburst. His hand clenched, then relaxed and an amused smile curled the corners of his lips. But, instantly alive to his position, he sobered again.

Flahaven sprang up. "Laugh, blast you! We'll see who'll laugh. Do you think I'm going to have my daughter waste her time on a day laborer? Don't think because you happened to know that black sheep Jim Truesdale, who got you into the club, and because you happen to own a dress coat and can shuffle your feet you are an eligible in society. Any fool can dance! You know why I don't discharge you. Because we're up against it for labor. That's why I took you on in the first place, with your inexperience, but if I catch you flirting with Viola again or so much as looking at her I'll not only discharge you, but blacklist you as well."

"May I say something, Mr. Flahaven?"

"What is it?" snarled the other.

"Maybe I'm more of a gentleman than you think. I know appearances are against me, coming here a stranger, but won't you investigate? I'm not ashamed of my record and I wish you would look it over. My family is honest and is well thought of where I came from. Ask Jim Truesdale—he'll tell you about me."

"No, I won't ask any one about you. You are working in this mill—that's enough for me—and I don't care a hang who you are. I've made plans for my daughter and I won't have her talked about in connection with workman. Now get out!"

"But, Mr. Flahaven—"

"Get out!"

"You'll be sorry. I love Viola and she loves me!" flashed the young man.

"Get out!" Almost mad with fury, the other sprang for Eric, but the door closed quietly and he was gone.

A notice to get his money and quit reached his department almost as soon as he did. "All right," he said cheerfully to the messenger. "Say, Tim, want to make a dollar."

"Sure!"

"Go and bet Patsy O'Brien that I'll get the old man's goat in two weeks."

"Aw, go on!"

"Do as I tell you. Make it a hundred if you want to. It's a sure thing."

That night, as pre-arranged by telephone, Viola met Eric at the gate of her father's premises.

"Hello, dearest girl!" he whispered cheerfully, drawing her close.

"What is it, Eric? Do tell me! They'll miss me from the veranda so you'll have to hurry."

"I'm going away, dear, but I'm coming back before long. I've been discharged and I'm going to hunt more work. But, tell me first, do you really love me?"

"Forever—and you know it, Eric."

"And you are willing to be poor and pack lunches for me, and have me come home black as a miner every night?"

"Perfectly willing."

"It will be a hard life, different from this. No money, maids nor motors."

"But I'll be with you, Eric, and I'll get used to it."

"You are the very dearest girl in the world! Now I must go. Goodbye, sweetheart."

"Viola," said her father at breakfast, "I've discharged that young upstart Bailey and blacklisted him for impertinence."

"Father, you didn't do that," she gasped.

"Yes, I did! He dared to tell me he loved you, and that—well, never mind. I've discovered he has left town and I'm satisfied. He just thought he'd feather his nest by plucking me, but he got left. I know his kind. Now let's talk of something else and forget him for good. Milly," addressing his wife, "I wish you would do something for me."

"Seventeen," the new novel by Booth Tarkington, has been chosen by the Famous Players Film company as the vehicle for the joint presentation of Louise Huff and Jack Pickford on the Paramount program.

The title, "Seventeen," refers, of course, to the age of William Sylvanus Baxter, the "indifferent" young man, and to that of Lola Pratt, the baby talk expert, who is his lady love. Jack Pickford will play "Will-ee," the doughty hero of the tale, whose savage struggle to withstand the ravaging eyes of Miss Pratt proves futile.

Miss Huff will play his little sister Jane, that most extraordinary child, whose unlimited capacity for bread, sugar and apple sauce, together with her absolute "obesity," in the matter of personal apparel, is a constant source of exasperating agony to her very much older brother.

With Jack Pickford as the redoubtable Will-ee and Louise Huff as the pestiferous Jane, "Seventeen," the company believes, should prove one of the most successful comedies ever produced by them.

WILBUR MUST HURRY

Crane Wilbur has made himself the bete noir of department store heads because of his recent announcement that he would take "some" salesgirl and make a motion picture actress of her.

Recently Mr. Wilbur received a letter from a department store asking him for the sake of discipline in the store to please decide at once on the salesgirl who is to get the chance to become a picture star. The letter goes on to say that instead of tending to customers, the girls now drape themselves over the counters, pen in hand, couching in the best rhetoric at hand phrases that they hope will appeal to the screen idol in his quest for a new kind of star. The company tried discharging, but soon discovered it would be necessary to discharge all the girls and fill their places with men. This would not do and so mercy in the shape of a speedy decision is craved of Mr. Wilbur.

Bluebird is to offer Louise Lovely and J. Warren Kerrigan, as co-stars in a screen version of Frederick S.

Sham's novel, "The Social Buccaneers," in which Kerrigan will impersonate a modern Robin Hood. Miss Lovely has heretofore been a lone star among the Bluebirds.

Ruth Stonehouse has been given her own company to direct and work has been started on a serial entitled "Mary Ann," which Miss Stonehouse wrote and in which she will play the lead.

Mrs. Vernon Castle has designed what she calls the Castle preparedness suit. She will wear it in her coming picture.

Thomas Meighan, when speaking of his school days, often refers to his excellent record as a football player. Funny he never talks of his studies.

ITCHING BURNING PIMPLES ON FACE

Also Blotches. So Severe Irritated Parts by Scratching. Very Annoying. In Six Months

HEALED BY CUTICURA SOAP AND OINTMENT

"I had a case of skin trouble that was pretty bad. It came out in pimples and sort of blotches and would itch and burn and cause me to awake in the night. The itching and burning were so severe that I irritated the affected parts by scratching. They were principally on my face and were very annoying."

"After so many speaking favorably of Cuticura Soap and Ointment I decided to try them. I noticed great relief after having used a quarter of a box of Cuticura Ointment together with the Soap and in nearly six months I was healed." (Signed) Leander S. CERTAIN STREETS IN VENICE

The Piazza of St. Mark's is an eminently conventional place to start seeing Venice. It has been snap-shot, sketched, charcoalled, done in oils and water-colors by the itinerant amateurs of every nation. Visitors less artistically gifted walk around the widely advertised evolutions of St. Mark, or sit under the arcades that fringe the square, discussing beverages whose colors shame the palettes of the artists. The Piazza is the gathering place of visitors in Venice, and the gathering place of the natives as well. This combination of attractions is possible because the Italians are the self-unconscious race and do not mind being stared at by tourists from Lincolnshire and Dakota.

DODGE & DAVIS COMPLAIN

Store Heads Claim Six Leading
Merchants Don't Pay as
Much Combined as
They Do

SPARTA, Wis., Sept. 13.—(Special.)—Maintaining that their merchandise stock valuation was wrongly portioned and that it is far in excess of the total valuation of the stock of the six other leading stores in the city, the Dodge and Davis department store has filed a complaint with the Sparta board of review.

The valuation of stock of the Dodge and Davis store by the board of review is \$40,000. They offer assessment figures of six other stores, whose valuation totals \$36,560, or \$3,740 in excess of the Dodge and Davis store.

Attorneys for the Dodge and Davis store refused to examine representatives of four local merchants who were summoned to appear before the board.

City Attorney Z. S. Rice has stated that unless the complaint is withdrawn or the Dodge and Davis store attorneys make an examination of the other merchants, he will compel all merchants to produce their inventories.

In the past year assessments throughout the city have been raised about fifteen per cent. There may be an effort made on the part of interested householders to have a more equitable assessment of real estate made. It is charged by some that homes are assessed out of all proportion to values. Bankers are complaining, also, that stocks are assessed at their market value, while stocks in all other banks in Monroe county are assessed at par, \$100 per share, although their market value is worth more than twice that.

NEW PENSION ACT
BENEFITS MANY
VETERANS WIDOWS

Seven Hundred in Wisconsin
Receive Pensions Under
New United States
Provision

MADISON, Wis., Sept. 13.—There are about 700 widows of civil war veterans in Wisconsin who will receive pensions under the widows' pension act passed by the last session of congress and signed by the president the last day of the session. This announcement was made today by H. W. Rood, in charge of the state G. A. R. headquarters here. The new bill raises the monthly pension for widows of veterans from \$12 to \$20. This also applies to widows of civil war soldiers, who subsequently remarried and whose later husbands have since died. It also provides for widows who, remarrying, have become divorced from their second husbands through no fault of their own. According to the former law veterans' widows, who remarried subsequent to June 27, 1890, were denied pension rights but this time, under the new law, has been extended to September 8, 1916.

MAINE ELECTION
A RECORD BREAKER

AUGUSTA, Me., Sept. 13.—Practical completion of vote counting Wednesday indicated that the election Monday proved a record breaker in the history of Maine. One hundred and fifty-two thousand citizens cast their ballots for governor, congressmen and state legislators.

In the revised figures the republican victory for governor was increased to 13,507 plurality, while Hale's lead over the democratic choice for United States senator (long term) stood at 9,895. Bert M. Fernald, republican, won the short term United States senatorship by 12,675.

STUDENT VOTES TO
HAVE THEIR DAY
IN HIGH COURT

MADISON, Wis., Sept. 13.—The supreme court will be called upon to give a decision in the student voting cases. The mandate will probably settle a scrap that has been going on every year since the university has been located here as to whether students had a right to vote. Assemblyman Heim of Madison attempted to disfranchise the students by a bill in the last legislature, but the measure failed. Yesterday the criminal cases against the students for voting were dismissed and the civil cases that raise all of the points of law involved will be given an early hearing on the calendar of the supreme court.

CRAZED NEGRO CREATES PANIC

ST. PAUL, Minn., Sept. 13.—Dashing through Farrington avenue Tuesday brandishing a revolver, Walter Dodd, crazed negro, created a reign of terror. Sight of police hearing down on him quieted him and he was disarmed without a struggle. Dodd had been discharged from the St. Peter insane asylum as cured.

BY CARL W. ACKERMAN

BERLIN, Sept. 13.—The combined "grand offensive" of the allies will be met by a combined "grand defensive" of the central powers, who will swing to the attack when the proper time comes.

The great war council being held at the Kaiser's headquarters on the eastern front is for the purpose of unifying the direction of all military movements by armies of the central powers. Since early in the war the central powers have acted completely in accord with their military movements, making it possible to beat off vastly superior enemy forces. That scheme of unified offense and defense will be made even more effective as the result of the present conference attended by war chiefs of the four empires warring on the allies.

Most favorable reports were brought to the war council from the different fronts. The Austro-German commanders sent word that the latest Russian offensive around Halitz has been stopped. It was learned that the German and Bulgarian invasion of Rumania continues to make progress while the Bulgarians are successfully resisting British and Serbian attacks in Greece.

The capture of the Rumanian fortress of Silistra is regarded as of special importance by the German and Bulgarian commanders. The position is considered the key to Bucharest.

DUSTIN FARNUM AS
DAVY CROCKETT AT
THE BIJOU THEATER

The vast range of scenery and climate that is available for motion pictures in Southern California is wonderfully shown in the raging snow-storm scenes and the summer garden scenes that were taken on locations all within a day's ride from the studio.

The new Pallas-Paramount photoplay "Davy Crockett" contains these scenes that were taken in the forest during a blizzard and the depth of the snow and ice-covered trees show a Southern California that few people know about. After taking these snow scenes the actors motored down to the sea shore to an estate with an old colonial mansion, surrounded by blossoming flowers and golden fruit, where the summer-like warmth made the frontier costumes seem too heavy.

All of the many and beautiful scenes of frontier days with diversified climate and conditions were taken with an eye to their artistic value and have enhanced the romantic interest of this story of Davy Crockett's younger days. This production will be the attraction at the Bijou theater on Thursday, Friday and Saturday of this week.

TRACK WALKER FINDS
DYNAMITE IN THE
STRIKE DISTRICT

NEW YORK, Sept. 13.—William Schumaker, a track walker employed by the Interboro railway, against which a strike was declared on the subway and elevated lines, reported to the police that he found a package of blasting dynamite on the subway rails in Brooklyn early Wednesday.

An inspector of the bureau of combustibles pronounced the contents of the package dynamite. The police are questioning Schumaker very closely.

Three persons were injured when a Third Avenue car, which police said was in charge of strikebreakers, ran into a closed switch Wednesday and jumped the track.

The dispute between the car employees and the traction companies had reached a complete deadlock. President Shonts of the Interboro and President Whitridge of the Third Avenue lines served notice that they would not consent to arbitration, as proposed by the public commission.

WILSON LEAVES FOR HOME

NEW LONDON, Conn., Sept. 13.—President and Mrs. Wilson left here Wednesday morning at six o'clock aboard the presidential yacht Mayflower for Long Branch, where the chief executive will take up his executive duties at Shadow Lawn.

Before sailing the president was informed of the critical condition of his sister, Mrs. Annie Howe, but was advised by physicians that her case was so serious that it would be of no avail for the president to remain at her bedside.

178 FIRES IN MONTH

ST. PAUL, Minn., Sept. 13.—There were 178 fires in Minnesota last month, entailing a loss of \$218,789 on buildings and contents valued at \$2,141,079 and insured for \$1,789,820. State Fire Marshal Haggardine reported Tuesday.

HARMONY WITH WILSON

Gubernatorial Nominee Says
That Is His Thought
for the State
Party

MADISON, Wis., Sept. 13.—Burt Williams, nominee on the democratic ticket for governor, is hopeful over the outlook for democratic success in Wisconsin this fall. From letters he is receiving, he predicts an unprecedented democratic vote and considerable support from progressive republicans. In speaking of the situation Mr. Williams today said:

Confident of Victory

"The democracy of Wisconsin is going into the coming campaign with the confidence of victory. The platform convention to be held next week gives every indication of being the most harmonious gathering held in Wisconsin in years. In the past month I have spoken at meetings in every part of the state and have had intimate talks with the bulk of the legislative candidates who will be at the platform convention. Without doubt this body of men will write into existence a platform that will be militant and inspiring in its progressiveness and one that all forward looking men, regardless of party politics, can enthusiastically endorse."

"In his great speech of acceptance, President Wilson called attention to the achievements of his administration and said that it showed the democratic party had opened its heart to comprehend the demands of social justice. He said in this connection, 'We have in four years come very near to carrying out the platform of the progressive party as well as our own; for we also are progressive.'"

In Harmony With Wilson

"This is the keynote of my thought for the democracy of Wisconsin. I want to see it in full harmony, heart and soul, with these ideals and conceptions of President Wilson. I want to see an endorsement of the principles and issues affecting social and industrial justice that affect every citizen of this state."

ORIGINATOR OF
"POPULAR PRICED"
FUNERAL DEAD

UNION HILL, N. J., Sept. 13.—William Necker, owner of thirty-one undertaking establishments and the originator of the "popular priced funeral," is dead at his home here following an operation.

Necker brought advertising into the undertaking business and platted the countryside with posters. He continually waged war on what he chose to term "the coffin trust." Manufacturing his own coffins and introducing auto hearses, Necker conducted between 5,000 and 6,000 funerals a year.

The capital stock of the company is \$50,000 with C. H. Neeb of Miami, Fla., as president; W. J. Minges of Des Moines, vice president, and E. L. Minges of Lewiston, secretary. The directors are C. H. Neeb, W. J. Minges, E. J. Minges and Alfred W. Neeb.

TOLD IN CELLULOID

"Lieutenant Danny U. S. "Lieut. Danny, U. S. A." is a Triangle-Ince production from the story by J. G. Hawks, directed by Walter Edwards. It is a picture of rare charm with a powerful love story and many exciting

moments in this country and Mexico; Enid Markey and William Desmond in this latest Triangle play will be more than appreciated by the movie fans.

NEW LONDON, Conn., Sept. 13.—

The American and Mexican commis-

sioners in conference here Wednes-

day dug more deeply than half into

the direct problem of the withdrawal

of American troops from Mexico.

General Bliss, assistant United

States army chief of staff, was to ar-

rive here, primed with facts as to

border conditions and recommenda-

tions for future border patrol. He

is understood to concur in General

Funston's recommendations that

General Pershing's forces be with-

drawn, that militia be substituted for

regulars on the border and that the

patrol be reduced as much as possi-

ble to insure safety.

Close observers of the conferences

believe the Mexicans have carefully

laid the groundwork, not alone for

withdrawal of the American expedi-

tion, but likewise for an American

loan.

HUGHES, FRESH FROM ONE TRIP, PLANS ANOTHER

By PERRY ARNOLD
NEW YORK, Sept. 13.—Elated with the result of the Maine election and highly pleased with his record breaking campaign trip, Charles E. Hughes, republican presidential nominee, returned to New York Wednesday.

In the candidate's trip, which took him from coast to coast and during which he made scores of speeches, kept him on the road just three days more than five weeks. He delivered the final speech of his trip in Plattsburgh Tuesday night.
Governor Hughes and Mrs. Hughes were driven direct to the Astor hotel where they had breakfast and the candidate then took up the task of a series of conferences with republican leaders.

Chairman Wilcox of the national committee was the first of the leaders to see the candidate. He had also arranged for numerous other republicans to confer with him and a busy day was in prospect.

Senator Smoot of Utah, Murray Crane, Frank Hitchcock, and others were waiting for a word with Hughes in going over the campaign trip just closed and laying plans for a second tour to start next Monday. If all conferences are disposed of in time the candidate hopes to visit republican headquarters during the day and see "wheels go round." At 3 o'clock, however, he was to leave for his summer home at Bridgehampton, L. I., for a complete rest before again starting out on his quest for votes in November.

Hughes is well satisfied with the results of the trip just closed and has made it clear that he intends to continue the fight along the same lines.

He will continue to assail the administration's method of settling the threatened railroad strike by enactment of the eight-hour law, attack the democratic tariff law, continue his assaults on the democrats in connection with the civil service and attack the administration's Mexican policy. He regards his criticism of the administration as having been constructive, as well as pointing out the weakness of democratic rule and with the success in Maine believes the people have been aroused to the justice of his attacks.

Starting on his second tour Monday, Hughes will have the Maine election to point to as proof of the reunion of the progressive and republican parties.

The candidate had given his endorsement to preparedness as a result of his visit to Plattsburgh. He expressed his approval of such preparedness camps and said he hoped more might be established.

The second trip of the candidate will take about ten days, according to present plans. It is planned for him to hit the high spots in Indiana, Illinois, Ohio and Wisconsin, returning to New York by September 28 when he will deliver the keynote address of the New York state campaign. The speech will be delivered before the republican "unofficial" state convention to be called for that date at Saratoga.

Frank Hitchcock, who was expected to confer with Hughes, left for the west last night, it developed today.

REMEDY FOR NEURASTHENIA
Neurasthenia is a condition of exhaustion of the nervous system. The causes are varied. Continuous work, mental or physical, without proper vacation periods, without proper attention to diet and exercise, also worry over the struggle for success, are the most common causes. Excesses of almost any kind may produce it. Some diseases, like the grip, will cause neurasthenia. So also will a severe shock, intense anxiety or grief.
The symptoms are oversensitiveness, irritability, a disposition to worry over trifles, headache, possibly nausea. The treatment is one of nutrition of the nerve cells, requiring a non-alcoholic tonic. As the nerves get their nourishment from the blood the treatment must be directed towards building up the blood. Dr. Williams' Pink Pills act directly on the blood and have proved of the greatest benefit in many cases of neurasthenia. A tendency to anemia, or bloodlessness, shown by most neurasthenic patients, is also corrected by these tonic pills.
Two useful books "Diseases of the Nervous System" and "What to Eat and How to Eat" will be sent free by the Dr. Williams Medicine Co., Schenectady, N.Y. Your own druggist sells Dr. Williams' Pink Pills.

HIGH SCHOOL HAPS

The liberties enjoyed by high school students under B. E. McCormick will be continued under S. E. Tiff, the new principal told the school in his first talk to the students Wednesday morning. The occasion was the year's first general assembly.

Layton Gouldin, faculty manager of athletics, explained the method of selling football tickets which will be employed. Instead of an advance sale before each game, season tickets will be sold for 50 cents if eight hundred are sold. Each ticket will be numbered and in the next general assembly a drawing will be made. The holder of the thirtieth ticket drawn will receive a twenty dollar gold piece, the holder of the fourteenth a ten dollar gold piece, the holder of the fifteenth a five dollar one and the holder of the sixteenth a two and one-half dollar one.

Miss Neprud, who is at the head of the social committee, announced that the first social hour would be held Friday night at 8:15.

AFTER SIX YEARS OF SUFFERING

Woman Made Well by Lydia E. Pinkham's Vegetable Compound.

Columbus, Ohio.—"I had almost given up. I had been sick for six years with female troubles and nervousness. I had a pain in my right side and could not eat anything without hurting my stomach. I could not drink cold water at all nor eat any kind of raw fruit, nor fresh meat nor chicken. From 178 pounds I went to 118 and would get so weak at times that I fell over. I began to take Lydia E. Pinkham's Vegetable Compound, and ten days later I could eat and it did not hurt my stomach. I have taken the medicine ever since and I feel like a new woman. I now weigh 127 pounds so you can see what it has done for me already. My husband says he knows your medicine has saved my life."—Mrs. J. S. BARLOW, 1624 South 4th St., Columbus, Ohio.

Lydia E. Pinkham's Vegetable Compound contains just the virtues of roots and herbs needed to restore health and strength to the weakened organs of the body. That is why Mrs. Barlow, a chronic invalid, recovered so completely. It pays for women suffering from any female ailments to insist upon having Lydia E. Pinkham's Vegetable Compound.

FEDERAL PROBE INTO THREATENED RISE IN MILK IS ANNOUNCED

WASHINGTON, Sept. 13.—A national probe into the cost of producing milk and the justification for the threatened rise in prices was announced Wednesday by the agricultural department.

The first formal action will be taken Thursday, when milk producers from several eastern states will confer with department officials. W. J. Spillman of the office of farm management; D. H. Rawl, chief of the dairy division and Department Solicitor Frank G. Gaffy, will be in charge of the government effort. Spillman said he would appoint a special investigator, an expert of national reputation, to steady conditions throughout the United States to learn whether producers would be justified in a general price advance.

The probe will be undertaken as an answer to the following proposition, received from milk producers all over the country and especially from New York, New England, Pennsylvania, and the region about Chicago.

"We do not know just what it is costing us to produce milk but we know we are getting poorer, so we want to know whether we are getting enough money for our products."

Vermont Election

BURLINGTON, Vt., Sept. 13.—Reports from a little more than half the voting precincts Wednesday give Carroll S. Page a plurality of about 5,000 for the republican nomination for United States senator. Gov. C. S. Gates of Franklin and former Governor Allen M. Fletcher of Cavendish were running against him.

The direct primary system was initiated with a heavy vote.

Manning Victor

COLUMBIA, S. C., Sept. 13.—Nearly complete returns from Tuesday's "run off" primary indicates a victory for Governor Richard J. Manning over former Governor Cole. By a vote of approximately 5,000 majority. A heavy vote was polled. F. H. Dominic seems to have unseated Representative Wyatt Aitkin in the Third district.

Poindexter Believed Victor

SEATTLE, Wash., Sept. 13.—Incomplete returns from the state-wide primaries Wednesday indicated the renomination of Miles Poindexter, progressive, for the United States senate, over Representative William E. Humphrey, regular republican. Former Governor Henry McBride appears to have been nominated for governor by the republicans.

All the real contests were among the republicans. Ex-Mayor John F. Miller who bucked the G. O. P. slate, appears to have won the congressional republican nomination in this district.

Frank Prosecutor Wins

ATLANTA, Ga., Sept. 13.—Hugh M. Dorsey, Atlanta, prosecutor of Leo M. Frank, apparently swept the state in the democratic primaries for the gubernatorial nomination. It is believed will be returned, with the exception of Representative Hughes in the Twelfth district, where Judge W. W. Larson has a slight lead.

Hunt In Arizona

PHOENIX, Ariz., Sept. 13.—His renomination assured by a majority of more than 3,000 Governor George M. Hunt, democrat, started his campaign for a third term Wednesday. Hunt has the support of organized labor.

The nominations for United States senator went to Henry Ashurst, democrat, and Joseph Kibbig, republican for congress; Carl Hayden, democrat, and Henry Eads, republican.

ART NOTES PROMINENT ART CRITIC TO TALK AT ART EXHIBIT

Dudley Craft Watson's Gallery Talk at Exhibit of Boston Guild Pictures Promises Feature of Week

This means it is taken to extend to all teachers of the city a special invitation from the Art Association to a gallery talk on the exhibit in the Masonic Temple, (corner Main and Seventh streets), to be given by Mr. Watson on Friday afternoon.

This includes all teachers in the city — of parochial schools, public schools, private, high school and normal school, and also the librarians. Mr. Watson is much interested in art in its relation to the schools; he cannot on this visit go to the various buildings for want of time. A meeting at four o'clock on Friday afternoon, in the presence of pictures this charming talker is certainly in his own domain.

In the evening at eight o'clock, Mr. Watson will give a gallery talk to the members of the association. In order that no regrets may be heard afterward, as was the case from several last year, all should arrange in time to hear this address; for on lecture in the presence of pictures this charming talker is certainly in his own domain.

Seventy-six in attendance at the art exhibit the first afternoon of the opening day, and a rainy day at that — a propitious beginning surely. And indeed it is a fine sight! The statuary, tingling with action, life and virility, and the exquisite work in miniature, are worth many visits to the Masonic temple to see, not to speak of the show in the big tent — the forty-three splendid canvases, charming stretches of color, excellent in technique, composition and finish. All will find here much to please and satisfy — even the most critical and discriminating connoisseur and laity. Although the collection shows a preponderance of figure work, there is the greatest variety in this line. Indeed, one must praise the judgment of the jury which selected this traveling exhibit for the fine impression — the variety, the balance — which the exhibit as a whole makes. Comment on individual works will not be made. This may much better be left to Mr. Watson.

Thanks, many of them, are due to Mrs. Pettigill and Mr. Owen for much time and faithful work in putting the exhibit in place and in decorating the room attractively. Also to Miss Sill and her helpers, the Misses Gordon, Hankerson, and Cunningham for valuable aid in securing the flowers and shrubbery.

To date the membership has reached almost 270 — 267 is accurate, I think. While we shall easily surpass last year's membership, judging from this good beginning so early in the season, we ought to have 1,000 members to carry on the work as it should be carried on. Our population of 30,000 or more ought to produce this number of persons at \$1 a year, who love good art, and believe in its civic value enough to help bring the best art to our city.

Art is democratic; it knows no race or class distinctions; it is universal in its appeal and in its benefit and refining influence. The Art Association of La Crosse invites all to become members, and thus make possible more and better art exhibits. These should be frequent and regular features of our city's activities.

There is a "holiness of beauty" as well as a "beauty of holiness."

"All passes; art alone Enduring stays to us; The brush outlasts the throne, The coin, the timerus."

—Austin Dobson.

KICK DOWNSTAIRS CAUSES WIFE TO SEEK A DIVORCE

That he kicked her downstairs, abused her and called her bad names is the allegation of Mrs. Ruth Scholberg, seeking divorce from Lewis Scholberg, through circuit court. She also alleges that Lewis misbehaved himself with certain persons in Portage on his trips there as a railroad man. The Scholbergs were married October 27, 1915.

MOTOR MERGER RUMORED

NEW YORK, Sept. 13.—The record advance of General Motors to \$690 a share, on a \$52 advance Tuesday and another of \$48 a share Wednesday, was accompanied by talk on Wall street of a giant new automobile merger. Several other motor shares made advances today, in some instances as much as \$5 a share.

The Wall street rumors evidently were built around a report that some of the largest motor interests of the country have held conferences recently.

For a moment Powers was blinded by the glare of the strong light and in turning out so happened to strike the roadster which was parked near the curb, but failed to show the necessary warning lights. Powers' Ford was badly crippled in the smashup.

GREAT IMPORTANCE PLACED ON MEET AT KAISER'S SEAT

LONDON, Sept. 13.—The greatest importance is attached to the present conference at the kaiser's headquarters, on the eastern front by correspondents stationed in Holland and Switzerland.

Besides the kaiser, Chancellor von Bethmann-Hollweg, King Ferdinand and Crown Prince Boris, of Bulgaria and Enver Pasha, Turkish war minister, several leading diplomats of the central powers are reported in consultation. The Amsterdam correspondent of the Exchange Telegraph reported Wednesday that the German chancellor will reveal some of the results of the conference when he opens the next reichstag session, September 28.

Rome heard from Swiss sources Wednesday that the kaiser called the conference because he was disturbed by hints that Bulgaria was threatening to sue for a separate peace. One Swiss correspondent reported that the kaiser ordered King Ferdinand to attend the conference with the crown prince as hostages to give assurance that Bulgaria would not abandon the German forces within her boundaries to attacks on the allies.

MIQUE MALLOY'S ALLEYS TO OPEN FRIDAY EVENING

The bowling season in La Crosse will be unclouded with a resounding report Friday evening, according to Mique Malloy, genial ivory-hunter and former baseball idol, now proprietor of the Lotus Bowling alleys. Those doubting Mique's word are invited to come and have a look. The alleys will lie in state Thursday evening in preparation for the big night Friday.

MAY CALL SPECIAL SESSION TO END TRACTION STRIKE

NEW YORK, Sept. 13.—Drastic steps to end the New York railway strike were considered by Mayor Mitchel Wednesday afternoon following the flat refusal by the Interboro and New York Railways company to accept the peace truce and arbitration plan proposed by the state public service commission.

The mayor is considering a request on Governor Whitman for a special session of the legislature to pass legislation to end the strike. The New York World in a first page editorial this afternoon called upon Governor Whitman to take such action, declaring that "New York has had enough and demands radical action now."

The second move under consideration by the mayor is to have the board of estimate grant an immediate franchise to the New York Motorbus company to run its motorbuses along streets paralleling the railway lines now tied up by strikes.

GIGANTIC REVIEW TO PRECEDE DEPARTURE OF GUARDS, REPORT

By WEBB MILLER
(United Press Staff Correspondent)

EL PASO, Tex., Sept. 13.—With the arrival of the last contingent of Ohio troops here late Tuesday, the largest body of troops gathered in this country since the close of the civil war is under canvass in the wide flung camps near Fort Bliss—39,000 men, of whom 33,000 are national guardsmen—according to figures announced by General George Bell, Jr. Tentative plans are under way in Washington, it is reported here, for a gigantic review of all the troops in this district by President Wilson in October, to demonstrate the effectiveness of the mobilization as a preparedness move.

At that time, it is said the thousands of national guardsmen from the entire two thousand mile stretch of border will be brought to El Paso to participate in the largest and most impressive military maneuver ever held in the United States. After that, if plans are carried out, the guard will be withdrawn from the border.

PLAYER or FAN!!

Get in the game

The closing series of many Leagues will soon be in order—and the keenest interest of any part of the season is in evidence at this stage of the game. The teams are watched closely just at this time, and every player wants to do his best and every "fan" feel his finest. The players that are the most vigorous will be the winners, and the fans that are the healthiest will get the most enjoyment out of the game. If your health is not up to standard, your lack of vigor is most likely the result of an impure condition of the blood—perhaps from the change in seasons or climate, or you may without fully realizing it, have Catarrh, or Malaria, or some form of Rheumatism in your system, that you can check easier now than you can later. In either event your blood needs the assistance of S.S.S. to help throw off the poisons and give it the vital qualities that only S.S.S. can give. Buy S.S.S. at any drug store—today—and get in the winners class. Remember it has been the Great National Blood Purifier and Tonic for fifty years and is guaranteed purely vegetable. Do not accept a substitute.

FOOTBALL CALL SOUNDS FOR MANY COLLEGE ELEVEN

Captain Dadmun of Harvard and Crimson squad on way to first fall practice at Soldiers Field, Cambridge.

Colleges throughout the country have issued orders for the first football practice and at many places it is already under way. Among the larger colleges Harvard's situation is most desperate. Percy Haughton will not be able to give very much time to the football squad because of his interest in the Braves. In addition, the material is not of high caliber. Mahan has graduated, together with Soucy, the crack end; Cowan, the guard; Wallace, center, and Gilman and Parsons, both tackles.

TIGERS HAVE GOOD CHANCE FOR LEAD

By H. C. HAMILTON
(United Press Staff Correspondent)
NEW YORK, Sept. 13.—The Tigers Wednesday had the best chance of the season to crowd the Red Sox from their chosen pinnacle and step into the lead in the American league.

They are just half a game behind the champions. They were to meet the Yankees at Detroit while the Red Sox will remain idle. If the Tigers win they will be just three points behind for the leadership in Ban Johnson's circuit.

The Dodgers, newly returned to their pet place at the top of the ladder, also face serious difficulty. The Phillies by downing the Cardinals with the Dodgers again stepped to the fore and now are only a game in the rear. Should the Pirates beat the Dodgers today and the Phillies score another success over the Cardinals, the Phillies will lead the circuit. The White Sox lost a peg in the fight for the Johnson bunting when they dropped a game to the Browns and their chances backslid considerably.

Acting on the theory that a man's system changes as he grows older, Frank Kramer, the perpetual champion in bike game, changes his system of training with each succeeding year. Frank has Dr. Osler taking it on the run.

SPORT DOPE

Coach Bob Fowell of the Pennsylvania football squad, has arranged to equip 200 candidates with suits. Another big war order.

The Red Sox have been tough picking for the Tigers this season, the Carrigans having copped 10 of the 16 games played with the Junglers. "Knockout" hitched in front of a fighter's moniker may sound like the real goods, but the records indicate that the title doesn't fit with champions.

The Cincinnati Reds haven't gone forward under Christy Mathewson's management as fast as Matty expected, and he didn't expect they would. Headline says: "Stuffy McInnis is natural 300 hitter." From American league batting averages we assume that Stuffy is waiting for nature to take its course.

There are many meal tickets owned by Grand circuit horsemen, but of the real hand engraved variety is Mabel Trask, the season's trotting sensation, piloted by Walter Cox.

Harry Bay, the old speed merchant, is still pastiming. The former Cleveland star is manager of the Rock Island Three-Eye outfit and is playing in the game for his team.

Ever Hammer, the blood lightweight, has forsaken Chicago and taken up his residence in Boston. Ever says he quit Chicago because he got tired of fighting in Kenosha. Ted Meredith, king of the middle distance runners, is learning the dye business in Philadelphia. Perhaps the fate of the Mackmen may have prompted Ted to pick the Quaker City as the most suitable place to learn how to dye.

Claiming that he beat Freddie Welsh fairly for the lightweight championship, Ad Wolgast is now clamoring for a title bout with Denny Leonard or Johnny Dundee. For continuous "legging it" in the Marathon game, Sydney Hatch, Chicago's veteran runner, is a wonder. Sydney missed the first Marathon in Greece, but from all accounts he has taken part in every similar race since the original grind.

The tall grass that is allowed to grow in the Jones yard is blamed for the defeat of the American league teams that have been taking the count at the hands of the Browns in St. Louis of late. Hard hit ball swatted by the visitors do not penetrate the thicket as far as the outfielders, so 'tis said, while the Browns' hits go through grass, outfielders, and all. Trick grass, that.

DENVER, Colo., Sept. 13.—Johnny Kilbane, featherweight champion, can have a bout with Freddie Welsh, lightweight champion, if Kilbane is willing to go the twenty round route, declared Harry Pollock, Welsh's manager Tuesday. Welsh, however, must be guaranteed \$15,000, and Kilbane must agree to the same weight stipulations that governed the recent Welsh-White fight at Colorado Springs, 135 pounds on the morning of the fight.

Leonard led off in Washington's half with a single, which forced the retirement of Mays, and an infield hit by Milan and singles by Smith and Garrity off Shore brought in two runs that ended the game.

MEXICO MAY HAVE A CONSTITUTIONAL MEET BEFORE LONG

NEW LONDON, Conn., Sept. 13.—Supporting their claim that the Carranza regime is now in a strong position and that its strength will become even greater, the Mexican commissioners announced here Tuesday that a call for a constitutional convention may be momentarily expected. The convention will be followed by state and presidential elections. The convention is expected to sit before next year.

"Certainly, I can lick any man that works under me."
"Well, ye can't lick me." He threw down his pick and spat on his hands.
"All right," said Danny, "go to the timekeeper and get your pay. I won't have any man under me that I can't lick."

The Tiger sluggers fell on the Indian hurlers for sixteen safe blows. Zack Wheat, Brooklyn's center-fielder, hit safely in each game of the double-header with Pittsburgh thus completing a string of twenty-five consecutive games in which he has hit safely.

A pinch single by Fred Merkle saved the Dodgers from being shut out in the second game by Al Mammaux.

Jack Pfeffer was too good for the Pirates in the first game.

THE HASKIN LETTER

THE NEW DOCTOR

By Frederic J. Haskin

WASHINGTON, D. C. Sept. 13.—Even the casual patient may notice that a great change has come over the medical profession in the last ten or fifteen years. When you went to a doctor about that long ago, he almost always felt your pulse, sometimes made you stick out your tongue and occasionally took your temperature. He then wrote a prescription with great rapidity, told you which drug store to patronize, and when to come back if you did not feel better.

You don't get off that lightly nowadays. The modern practitioner takes the pressure of your blood, and analyzes a sample of it. He tests your heart with one machine and your lungs with another, and gazes down your windpipe with the aid of a third. He tests your eyesight by making you look at the end of his finger and across the street and at a lot of little poker chips on a revolving card. He punches and tickles you to see if your reflexes are good, and then he sits down and goes into your personal history, your habits and predilections, your emotions, and vices. He digs up your ancestors for four generations and searches their lives for signs of the pathological and psychopathic and the neurotic, all of which he carefully notes down. To him you are a scientific specimen, a diseased organism that he is going to make well if it is humanly possible.

This change, so impressive and comparatively sudden to the layman, is to the medical profession the successful culmination of a long fight that it has made to improve itself. The public never demanded a better doctor; it accepted him as he was. It was the doctors themselves that raised the

standards of medical schools, stiffened the state examinations, provided for hospital training.

The latest development in this regeneration of the doctor has been the creation of a National Board of Medical Examiners, which will hold its first examination in Washington next month. This board is supported by the Carnegie Foundation, and consists of six government medical officers, and nine other physicians of the highest standing. It will examine any physician who applies to it, and will give him a certificate if he passes the test. Needless to say, this certificate will be a guarantee of his ability. Furthermore, many of the state examining boards have agreed to accept these certificates in lieu of an examination. Thus a step has been taken toward standardizing the requirements in all of the states. Furthermore, the national board is of great practical value to the profession because a man who has his certificate will be able to move from one state to another without passing a new examination.

The most important factor in this medical reform, however, has been the improvement in medical education. The American Medical Association, has been the leader in this work, and it annually publishes figures which show what has been accomplished. Most significant are the facts that in 1905 there were more than twenty-six thousand medical students in the United States, while this year the number is only fourteen thousand. We are only producing a little over half as many doctors now as we were ten years ago. The reason is that the educational requirements of the profession are so rigid that only the determined start, and only the competent finish.

A physician who has been out of college about nineteen years was asked about the conditions of medical education at the time of his graduation.

"It was a crime to turn me loose on the public!" he replied with emphasis. He went on to tell of the college, which was the best in the United States at that time, but had practically no entrance requirements. The course lasted three years, but had been only two years a short time before. The graduating class numbered about two hundred and fifty, not thirty of whom had a college degree or any college education. Very few of them were more than twenty-one or twenty-two years of age. This particular young doctor took the state examination in two western states. In each case he was required to show his diploma and pay a two-dollar fee. That was all.

Compare the experience of this young doctor with that of one who aspires to enter the profession today. Before he can even get into a medical college he must have at least years of general college work, or in some cases a college degree. He must then go through a four year course and pass a very difficult examination. Then he spends one year as an interne in a hospital and passes a difficult state examination before he is allowed to practice.

Under these circumstances, it is no wonder that the young doctor of today is efficient. It is practically impossible for an inefficient to become a practicing physician. He is not so very young either. The average age of the graduating medical student is twenty-nine and a fraction years. There is certainly no profession which gets its recruits by such a rigid process of selection, or which requires greater sacrifices of them.

The decrease in the number of medical students has been accompanied by a decrease in the number of colleges. This does not mean that good schools have had to go out of

business. It means that many small ones have been combined into a few large ones, and that a certain type of medical school which was generally a private corporation and run for profit, has completely disappeared. The growth of medical schools in this country reached its zenith in 1906, when there was 162 of them. Now there are only ninety-five.

The advancement of the medical profession in America has been a most remarkable one, and our medical men are now conceded to be equal to the best in the world. Nearly all of this advancement has been due to the earnest efforts of the physicians themselves to learn and provide the means of learning. In Colonial days, one learned medicine by apprenticeship, although a young doctor of means might go to England for a sort of post graduate course. Those were the cupping and bleeding days, and the means and methods of the science were inexpressibly crude. According to students of medical history, however, the doctors of that day were not as inefficient as one might imagine. The science of medicine had not been invented; but there was an art of medicine of which the doctors of that day were more perfect masters than are the modern practitioners. In the opinion of one physician, who has made a study of medical history.

The first medical school was founded about 1765 at the University of Pennsylvania, and after that the number of institutions grew rapidly, while the custom of sending a young doctor to Europe for the finishing touches also thrived. In the days when Oliver Wendell Holmes was a medical student it was the thing to go to France, and during this period the American medical profession received much of its inspiration, for the French scientists are perhaps the most brilliant in the world. Later it became the fashion to go to Germany, and from that country the American scientists learned the value of plodding thoroughness.

Then came the era when medical schools grew up like toad stools in this country, and anyone with a few

hundred dollars could become a doctor in a couple of years. During this period, the great medical schools went to turning out doctors of the highest ability, but the profession was also overrun with half-trained quacks. The reform of the past ten years, which has eliminated the inefficient school and cut the number of students nearly fifty per cent, has been the last step in making the American Medical profession the highly efficient body of men which it is.

HUGHES GRATIFIED

PLATTSBURGH, N. Y., Sept. 13.—"I am deeply gratified at the result in Maine. We shall go forward with renewed confidence," was the comment of Charles E. Hughes, on Maine election returns, as he arrived here Tuesday afternoon to visit the preparedness camp.

COAL STRIKE OFF

KANSAS CITY, Sept. 13.—The threatened coal strike in the southwestern coal district is off. Miners and operators got together after weeks of wrangling. The operators conceded the bitterly disputed hiring clause and say the men gave up a point, but this is denied.

LORIMER, ONCE OUSTED, IS OUT FOR SENATE SEAT

CHICAGO, Sept. 13.—Ousted from the United States senate for the way he obtained his election, former Senator William (Billy) Lorimer, was a "comeback" candidate for the congressional nomination on the republican ticket in the state primaries here Wednesday.

The appearance of the ousted senator's name on the ballot was the signal for the renewal of the political war on Lorimer. He is opposed for the nomination by three other candidates.

Lorimer recently was acquitted of the charge of conspiracy to wreck the La Salle street Trust and Savings bank. He has promised to pay all depositors who lost money in his bank's crash.

KAISER'S REPLY RECEIVED

WASHINGTON, Sept. 13.—The state department on Tuesday received from American Ambassador Gerard at Berlin the kaiser's personal

reply to President Wilson's personal letter urging that a Polish relief agreement be reached between the belligerents. The letter was forwarded to the president.

The kaiser's reply was sent through Gerard in order to avoid the British censorship.

FOUND DEAD IN HOME

HUBBARDS WOODS, Ill., Sept. 13.—The bodies of Mrs. Julius Keller and her son Michael, 12, were found dead in their home here Tuesday from gas. The son had been dead a week and the mother two days. The police are searching for the husband.

BELIEVE PROF. SUICIDE

COLUMBUS, Ohio, Sept. 13.—Prof. Charles S. Prosser, 56, of the Ohio State university, was found drowned in the Olentangy river Tuesday. The police believe he committed suicide.

OHIO CHAIRMAN OFF G. O. P. SEES VICTORY

WASHINGTON, Sept. 13.—"There is no question about Hughes' election," said Representative Frank P. Wood, Ohio chairman of the republican congressional campaign committee, commenting on the Maine election.

"The whole fight will be over the seats in congress. Yesterday's results makes it necessary for us to elect only eight more senators to seats now held by democrats to overturn the democratic majority while a change of fifteen will do the same thing in the house. We expect to win a working majority."

The vote in Maine is a good omen, according to Secretary of the Navy Daniels.

"As analysis of the vote shows that about 77,000 republicans voted for Milliken, the republican gubernatorial nominee," said Daniels, "from 69,000 to 70,000 republicans voted for republican senatorial nominees. This means that from 7,000 to 8,000 republicans voted with the democrats on national issues."

HAVE DARK HAIR AND LOOK YOUNG

Nobody can Tell when you Darken Gray, Faded Hair with Sage Tea.

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful. This preparation is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

The Baker Pays Her Gas Bills

Two women were comparing notes the other day. "My gas bills are frightfully high," complained one. "Mine are almost nothing," laughed the other. "I let the baker do my cooking."

Women are getting away from the idea that they must bake at home. They are serving foods like Holland Rusk, which are ready to eat and save time and bother. You can eat Holland Rusk three times a day—for breakfast instead of toast or hot breads, for dinner with fruit as shortcake and for supper with creamed meats or vegetables. With Holland Rusk you can serve the old standbys in new ways that make an acceptable change. f
